

RV TESTING MACHINES PRIVATE LIMITED

NABL ACCREDITED CALIBRATION LABORATORY — CERTIFICATE NO: CC-4232

ISO/IEC 17025:2017 & ISO 9001:2015 Certified | Chennai, India

SERVICE & CALIBRATION BROCHURE

Service & Calibration Overview

RV Testing Machines Private Limited is an ISO/IEC 17025 accredited calibration laboratory based in Chennai, India. With over 10 years of industrial testing expertise, we provide high-precision field servicing, preventive maintenance, multi-brand machine retrofits, and accredited calibration for material testing instruments across India.

Comprehensive Support & Servicing Scope

Support, service and calibration are available on-demand for:

- RV Testing Machines: Full servicing and calibration for all proprietary instruments.
- Rubber & Elastomer Testing Equipment: Rheometers (MDR/ODR), Mooney Viscometers, & Cure Kinetics.
- Hardness Systems: Digital & Analog Shore A/D Durometers, IRHD Micro Testers, Rockwell, Brinell, Vickers.
- Tensile & Compression Machines: Universal Testing Machines (UTM Type EM / Hydraulic) up to 1000 kN.
- Transducers & Accessories: Load cells, strain gauges, LVDTs, mechanical, optical, and video extensometers.
- Machine Retrofits & Upgrades: Integration of DOLI EDCi20 digital controllers & Windows data software.

Calibration Capabilities & Testing Ranges

The calibration of force testing equipment can be performed in accordance with our NABL / ISO 17025 accreditation both in-house and at customer sites. All calibration procedures conform to ISO 9001:2015 standards and are 100% traceable to National Physical Laboratory (NPL) standards.

Parameter / Equipment	Calibration Range	Standard / Notes
Tension Force (UTM)	1 N to 200 kN	ISO 7500-1 / ASTM E4 (Class 0.5 & 1)
Compression Force	1 N to 200 kN	In-house & On-site calibration
Dynamic Torque (MDR/ODR)	1 to 80 dN.m	Moving Die & Oscillating Disc Rheometers
Rubber Hardness (Shore A/D)	10 to 90 HDA / HDD	ASTM D2240, ISO 48, DIN 53505
Micro IRHD Hardness	30 to 100 IRHD	O-Rings, thin seals, & gaskets
Extensometer Verification	0.0001 mm resolution	Up to 550 mm travel (ISO 9513)
Temperature Calibration	Ambient to 300°C	Rheometer dies & heated platens
Crosshead Speed / LVDT	0.01 to 1000 mm/min	Displacement & speed transducers

RV TESTING MACHINES PRIVATE LIMITED — CONTACT & SERVICE DESK

Address: No. 1, 1st Floor, 2nd Cross Street, Rajiv Gandhi Nagar, Alapakkam, Porur, Chennai – 600116, TN, India.
